The new Pimpernel collection of kitchen accessories and trays are made from bamboo, a 100% renewable and ecologically responsible material which has the advantage of being naturally antibacterial and exceptionally tough.

The cheese board with cutter is perfect to use after dinner whilst serving a selection of cheeses. The decorative tile insert adds elegance and coordinates with some of the beautiful Portmeirion collections.

The chop and serve board is a most versatile tool for the busy cook. The bamboo cutting surface can be used for preparation and the removable ceramic platter can be used to serve the prepared food direct to the table or to take the chopped food straight to the pan. The chop & serve board is also an ideal way to serve cheese and bread.
